Dr. Michelle Reed
Curriculum Coordinator

August 22, 2017

Dear Parents/Guardians:

As an identified Focus District, we are required to offer Public School Choice for students. However, since we have no other schools in our district this is not a viable option. Public School Choice would allow parents to send their child to another school within the district that was not labeled as a Focus school.

We were identified as a Focus district based on the performance of students on state assessments (ELA/MATH 3-8 and Regents) and prior graduation results (2010 Cohort). Townsend Elementary school was identified as "Good Standing." The Dr. George F. Mack Middle School was identified as a Focus school due to the performance of students with disabilities and economically disadvantaged students. O'Neill High School was identified as a Focus school based on the performance of economically disadvantaged students and white students.

More information about our plans to address these identifications are located on our school website. You can view the two School Comprehensive Education Plans (SCEP) at <http://www.waltoncsd.org/FormsandDocuments.aspx>. We will be updating these plans with parents and teachers during this school year.

Thank you for your support. We are working diligently to improve student performance and instruction.

Sincerely,

Dr. Reed
